

***1st Viennese Workshop  
on Stable Isotopes in Biology and Ecology***

held 17.12.1998 at the Institute of Plant Physiology, University Vienna

<b><u>Organizers:</u></b>	<b><u>Marianne Popp, Craig Atkins</u></b>
<i>Craig Atkins &amp; Lee Heng</i>	Water relations and isotopic composition studies
<i>Marianne Popp</i>	Stable isotope applications in plant ecology
<i>Wolfgang Wanek</i>	Carbon isotope discrimination in higher plants
<i>Gudni Hardarson</i>	Enhancing biological N <sub>2</sub> fixation in legume-rhizobia systems
<i>Rebecca C Hood</i>	Plant nitrogen uptake from organic residues
