4<sup>th</sup> & 5<sup>th</sup> NOVEMBER,  
University of Vienna

The 11<sup>th</sup> Austrian Stable Isotope User Group Meeting is organized by the Department of Chemical Ecology and Ecosystem Research (Faculty of Life Sciences) and the Department of Geodynamics and Sedimentology (Faculty of Earth Sciences, Geography and Astronomy).

Stable isotope analyses provide exciting new approaches in a variety of current research topics ranging from Earth and Biological to Forensic and Medical Sciences. This meeting aims to bring together researchers and students in an informal workshop-like atmosphere to improve communication and interaction within and across disciplines and institutions. The meeting will include invited and contributed talks, as well as poster presentations.

### **Date and Venue**

The meeting will take place on **4 – 5 November 2011**. The conference will be (probably) held at the **Geocenter** (UZA 2, Althanstraße 14, 1090 Vienna).

### **Scientific program**

The meeting will consist of three blocks of oral sessions, covering *Earth Sciences*, *Biological Sciences* and *Miscellaneous & Emerging Techniques*. **Keynote lectures** and an overview of the **conference program** will be announced in the second circular shortly after closing of the registration.

### **Abstract submission**

Regular oral presentation will be 15-minute talks (including 3 min discussion). Posters are welcome and each poster will be presented by a 3 min "poster speed" presentation in front of the posters.
